Dear Vincent

**Re: Mr Jialin YANG (DOB 06/03/1985)**  
**Flat 48 Cornwell House, 13 Ron Leighton Way, London E6 1EQ**  
**Telephone: 07856 226910**

I saw this gentleman in clinic who is recovering very well following his synchronous liver and colonic resection. Jialin is managing his ileostomy well though he has some wound discomfort which is not unexpected. I have prescribed him Diclofenac 75 mg slow release for a week and shall review him again.

His final histology was a pT0N1c M1a with two tumour deposits and 0/32 lymph nodes involved.

Jailin will return back to Professor Marco Gerlinger, Consultant Oncologist with regards to ongoing chemotherapy

With kindest regards

Yours sincerely,

Mr Christopher Chan BSc PhD FRCS (Gen Surg)
